Effective January 1, 1924

The National Nurseries

Lawrence, Kansas

GENERAL INFORMATION

METHODS OF DELIVERING STOCK

1—**Through local distributing agent.** We engage a reliable local business man to look after the distribution of stock to customers where we have enough business at any point to justify the expense, usually \$100 to \$200 worth of orders. Collections are made at the time orders are delivered, if the orders have not been paid in advance of shipment.

(A) **Country and small town deliveries.** Customers are notified to call at the distributing agent's place of business for their stock, immediately on arrival of the shipment.

(B) **City deliveries.** In towns and cities with a population of 10,000 or over, we usually deliver the stock upon the premises of the customers, if customers reside within the city limits. We notify customers at time of shipment so they will be ready to receive and plant their stock promptly on delivery.

2—**Direct shipment by Parcel Post, Express or Freight C. O. D.** At points where we do not have enough orders to justify the expense of a distributing agent, we reserve the right to forward the stock by Parcel Post, Express or Freight C. O. D. **We pay the transportation charges, also charges for return of the money.** The method of shipment and delivery must be left entirely to our discretion. We guarantee stock to be in perfect condition when turned over to customer.

TERMS OF PAYMENT

1—**CASH WITH ORDER** — Entitles purchaser to select additional nursery stock to the amount of 10% of the advance payment, without any additional cost. To illustrate. An order amounting to \$10.00, if paid

LAWRENCE, KANSAS

for at time of purchase, entitles customer to select 10%, or \$1.00, worth of extra stock free, or \$11.00 worth of stock for the price of \$10.00.

Our salesmen are authorized to accept checks payable to THE NATIONAL NURSERIES at Lawrence, Kansas. Customers may remit direct if they prefer. Salesmen are supplied with blank checks, payable to our order. These checks are endorsed by us and returned to the customer through his local bank, thus it will become a legal receipt for the customer, eliminating any chance of a mistake

2—CASH ON DELIVERY—Net amount of order, no discount.

3—Advance Payment Required on Orders Amounting to \$50.00, or More.

Terms—One-fourth cash with order, balance on delivery of goods. This advance payment on large orders shows evidence of good faith on part of the customer and protects us against cancellation before shipment, or loss on delivery.

4—SMALL ORDERS—Less than \$5.00—**Cash with Order.** Because of the expense in handling and preparing small orders for shipment, there is usually little or no profit in orders amounting to less than \$5.00. The bookkeeping expense alone often amounts to more than the profit; therefore, we are obliged to ask cash in advance upon all orders amounting to less than \$5.00.

PACKING. Every customer's order is individually packed in the best packing material, paper and burlap we can buy for this purpose. All trees and plants are inclosed in heavy paper or burlap, with damp packing material around the roots, to prevent the stock from drying out. Years of experience have taught our workmen to pack an order so it will arrive at destination in as good condition as when it left the nursery.

THE NATIONAL NURSERIES

GUARANTEES. We guarantee stock to reach customer in proper transplanting condition. Any stock proving otherwise, will, upon proper proof, be promptly replaced free of charge to customer. All claims for errors or damaged stock must be made immediately upon receipt of shipment. If the customer will call for his stock on receipt of notice, and plant it promptly, he should sustain little, if any, loss.

WE DO NOT REPLACE STOCK THAT FAILS TO LIVE. The living of trees and plants, after delivery to customer in good condition, is dependent almost entirely upon conditions of soil, weather and after care, all of which are beyond our control.

“The buyer should not expect the nurseryman to guarantee his trees to live, any more than he would expect a dealer in live stock to guarantee an animal to reach a specified age. If the nurseryman agrees to replace trees that die, he **must charge for it**. He cannot give something for nothing any more than the butcher or grocer. Too often the agreement to replace breeds carelessness in the buyer. All the buyer should ask of the nurseryman is that the tree reach him in good condition for setting.”—Albert Dickens of the Kansas Agricultural College in “Farmers’ Mail and Breeze.”

SHIPPING SEASONS—

FALL—October 25th to December 1st. We commence shipping in the fall after the stock has fully matured and is in perfect, dormant condition. Usually most of our fall shipments are sent between October 25th-November 10th.

SPRING—March 25th to April 15th. Weather conditions in this locality govern. We ship as soon as danger of freezing is over.

Owing to the nature of our goods, the shipment of which is governed almost entirely by weather conditions at this point, no definite shipping dates can be

LAWRENCE, KANSAS

given. We are just as anxious to get stock to the customer as early as possible, as he is to receive and plant it.

QUANTITY RATES

Five or more trees or plants at "TEN" rate.

Six or more at "DOZEN" rate.

Twenty-five or more at "HUNDRED" rate.

Two hundred fifty or more at "THOUSAND" rate.

Customer may select as many varieties as desired of the same class of stock, provided the price for all varieties selected is the same, as in Apple, Peach, Cherry, etc.

Where the price differs on varieties, as with Grapes, the quantity rate will apply only on varieties listed at the same price.

APPLES—General Assortment

ORNAMENTAL TREES

All First-Class in Size and Quality

Note 1.—The size mentioned after each variety
is that considered proper for first class trees suit-
able for transplanting. The size varies according
to the habit of growth of the varieties mentioned,
as, of course some trees when fully grown, are
smaller than others, but equally as good.

Note 2.—We divide the ornamental trees into
two classes: those suitable for street planting
(Class A), those suitable for lawns (Class B).
Those that can be used for either are marked
(A and B).

	Each	Per 10
Ash, Am. White6-8 ft. (A)	\$1.50	\$14.50
Birch, Cut Leaf.....6-8 ft. (unable to supply)		
Black Locust.....6-8 ft. (A)	1.50	14.50

Honeysuckle, Scarlet Trumpet.....	1.00	9.50
Ivy, Am. or Virginia Creeper.....	1.00	9.50
Wistaria, Purple.....	1.00	9.50

ORNAMENTAL SHRUBS

No lawn or yard, whether large or small, is either complete, attractive or homelike without a certain amount of flowering shrubs.

Properly arranged they in no way encroach upon the lawn. They not only add beauty and

THE NATIONAL NURSERIES

adornment, but at the same time can be used as screens to cover unsightly objects or fences, and break the foundation line of the house. They are indispensable, besides lend a cheerful homelike effect. A few dollars spent in shrubs will often add more value to a property than hundreds of dollars spent in other ways.

When the size is mentioned after upright shrubs, it is such as we consider proper for first class plants, suitable for transplanting. The size varies according to the habit of growth of the varieties mentioned, as, of course some plants when fully grown are smaller than others, but equally as good.

Our Shrubs are Clean and Thrifty, Strictly First Class

\$1.00 each.

Jupiter. Large, deep purple. \$1.00 each.

PEONY COLLECTION. — Twelve (12) first class Peony roots, one each of the above choice named varieties, regular value \$13.75.

**SPECIAL PRICE FOR
COLLECTION - - - \$10.00**

PERENNIAL PHLOX

Phlox is one of the most easily grown hardy perennials, and the large number of beautiful varieties now offered makes it especially desirable. These noble flowers are not only beautiful as individuals, but the cheerful appearance of our gardens during the summer and autumn months is much indebted to them. They succeed in any position or soil, and can be used to advantage either as single specimens in the mixed border or as large clumps or beds on the lawn. The ease with which they are cultivated, their entire hardiness and the extended time of blooming, combined with the varied and beautiful coloring, make them especially valuable for garden planting. The perennial Phlox usually commence to bloom in early summer, and are brilliant with color until after several frosts have come.

Strong Field Grown Stock

Price 50c each

A choice list of varieties—

BRIDESMAID, white with large crimson center.

FANTOME, deep lavender, edged and shaded with white, dwarf.

FRAULEIN G. VON LASSBURG, pure white, immense panicles.

ISABEY, salmon-pink.

LOTHAIR, bright crimson.

PECHEUR d' ISLAND, lavender-cerise.

RYNSTROM, a lively shade of rose-pink, very large.

SUNSET, dark, rosy-pink.

COLLECTION—One strong plant of each of the above varieties, 8 plants in all, for \$3.50

THE NATIONAL NURSERIES

Barberry, Thunberg's, 12-18 in	\$20.00	\$75.00
Privet, California, 18-24 in.....	4.00	15.00
Privet, Amoor River, 18-24 in.....	7.00	25.00

Privet is sold only in multiples of 25 each. No order accepted for less than 25 plants.

We recommend the AMOOR RIVER PRIVET, because of its extreme hardiness.

Privet and Barberry should be planted one foot apart in the row, requiring 100 plants for every 100 feet of hedge row.

THUNBERG'S BARBERRY makes the best hedge where no trimming is desired. The foliage turns to a riot of brilliant colors at frost time, and its graceful drooping branches are then covered with small red berries. Hardy everywhere.

EVERGREENS

WE HAVE DISCONTINUED THE SALE OF EVERGREENS

They cost more to grow than most people are willing to pay for them.

Very few planters have any success in transplanting Evergreens, resulting in much dissatisfaction and loss to our customers.

NATIONAL BRAND trees and plants represent the highest standard in quality and service. Grown by experienced propagators and packed in the most approved manner for shipment, we are in position to guarantee delivery of our products in perfect condition.

Important Notice

Confine all sales to varieties in this list, which permits of a generous selection of best kinds suitable for all territory.

We have no varieties to offer except the kinds mentioned in this Price List.

If you don't find it in this price book, don't sell it.

SUITABLE DISTANCE FOR PLANTING

Apples	30 to 40 feet apart each way
Standard Pears and Cherries	20 feet apart each way
Plums, Peaches and Apricots	16 to 18 feet apart each way
Dwarf Pears and Quinces	10 to 12 feet apart each way
Grapes	rows of 10 to 16 feet apart; 7 to 10 feet in rows
Currants and Gooseberries	4 feet apart
Raspberries and Blackberries	3 to 4 by 5 to 7 feet
Strawberries, for field culture	1 by 3 to 3½ feet
Strawberries, for garden culture	1 to 2 feet apart

NUMBER OF TREES OR PLANTS TO THE ACRE

40 feet apart each way	28	10 feet apart each way	435
30 feet apart each way	48	8 feet apart each way	680
20 feet apart each way	110	6 feet apart each way	1210
18 feet apart each way	135	5 feet apart each way	1745
15 feet apart each way	205	4 feet apart each way	2725
12 feet apart each way	300	3 feet apart each way	4840

RULE—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant, which, divided into the number of square feet in an acre (43,560), will give the number of plants or trees to the acre.
